

Taffy Town Chess

Put a spin on one of the classics with Taffy Town's updated version of chess! Lost a few pieces out of your favorite set? Don't know where you left the queen? Ready to mix things up? No worries. Taffy Town is here to help. Our modernized version will liven up the board with pieces that are yummy enough to eat.

What you need

- Chess Board
- Taffy Town Gourmet Saltwater Taffy
- Toothpicks
- Scissors

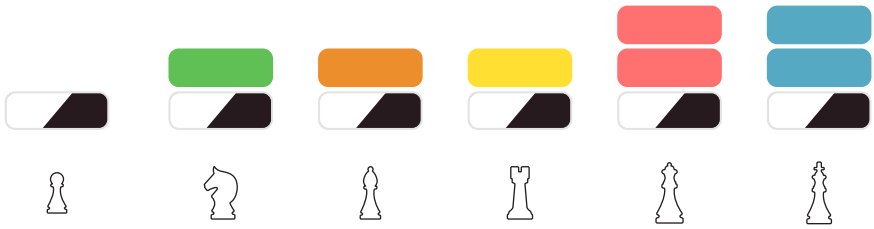

How you play

Swap out your old and boring chess pieces with an array of saltwater taffy from Taffy Town

For the pawns, leave the black and white taffy one-tiered

For the knights, bishops, and rooks, make the pieces jump out by stacking two pieces of taffy together. Keep things stable by sliding a toothpick into both pieces and cutting off the sharp edge with your scissors

For the queen and king, repeat the method but with three pieces of red and blue taffy

Rules

Follow the same classic rules you've come to know and love with one exception. Winner eats all! Whoever wins the game takes home the cake (or in this case-candy)!

Find all the ingredients to the perfect game of chess by visiting Taffy Town's online store at taffytown.com.
